EXECUTIVE SUMMARY

Deliverable “D10.6: Target-Driven Dissemination Strategy, Plan & Reporting - M3 - Website”, is under the ZDZW task “T10.2: Dissemination Materials, Website, and Intranet” within “WP10: IMPACT: Dissemination and Impact Maximisation”. D10.6 is of type ‘DEC’ whose nature is “Websites, patents filing, videos, etc.” and cannot be directly uploaded as a deliverable thus this document acts as a ‘coversheet’ of the ZDZW website.

1 WEBSITE

ZDZW public website was implemented during the first three months of the project and will be maintained over the lifetime of the project. The website will be the main communication tool of the project and all the communication/dissemination materials will be published in a timely manner. It will continue to evolve over time with more major updates especially for the ongoing results. As prescribed, it will fulfil the function of providing:

- Project description and progress
- Publishing public deliverables
- Information on ZDZW events (such as project meetings and workshops), publications and exploitable results
- Direct access to different social networks

Note that ZDZW portal is not part of the website and the project document repository has been handled internally via Microsoft Teams.

ZDZW has acquired two domains: www.zdzw-project.eu (main/default) and www.zdzw-project.com.

ZDZW website is a modern website with very visual design. Figure 1 includes some screenshots of different sections of the website.
